TEXTILE LAMINATION ADHESIVES

We take care of your textile
lamination requirements

MORCHEM

MORCHEM

Morchem has developed an **extensive product portfolio of polyurethane adhesives** to cover different lamination applications.

From medical to automotive, intimate apparel to outdoor wear, home furnishings to industrial abrasives. We have the solution to these and more...

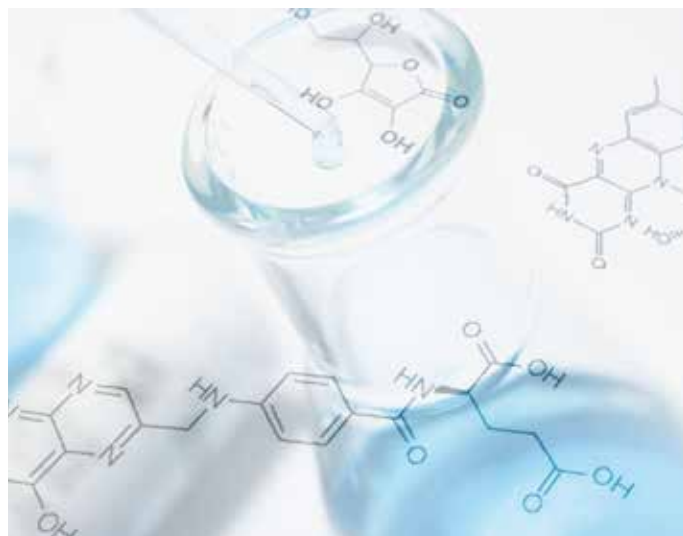

MORCHEM

Morchem adhesives **are able to bond all possible substrates** including cotton, polyesters and polyamide fabrics, to various foams and PVC, PUR or polyester membranes including high-technology fibers such as fluorocarbon films (Teflon®).

MORCHEM

Morchem adhesives can be applied with **conventional application methods** such as slot nozzle, roller, screen or spray.

Morchem adhesives have **high tack** performance and a '**soft to the touch**' finish.

MORCHEM

Morchem adhesives are **suitable for even the most extreme applications**. Irreversible bonding capable to withstand the highest thermal and chemically aggressive conditions.

Our products carry **independent certification** such as Oeko Tex and UL94 to guarantee your peace of mind.

- 1 *Higher efficiency energy system.*
- 2 *Non-flammable product.*
- 3 *Application on demand.*
- 4 *Irreversible bonding.*
